Facts: Harley has discontinued all cruise control "assembled" parts for ALL Road Kings. We can no longer get parts for Road Kings. The cruise control modules (motors) were made by Delphi. Delphi quit manufacturing these modules in 2005 (yes, that's right, 2005). Harley ran out of their supply of the modules (all part numbers).

Harley cruise control problem 1 - YouTube

Description • Unlike mechanical throttle controls or friction thumb wheels, this complete electronic speed control allows you to set and maintain constant speed at the touch of a button • Your dealer will install the new hand controls, enable the cruise control function in the Electronic Control Module (ECM), and you're ready to roll

Cruise Control Kit - 41000369 | Harley-Davidson USA

I have a 2005 Road King that has factory cruise control installed on it. I also have a 2006 Electra Glide that does not have cruise. Can I remove the cruise from my Road King and install it on my Electra Glide? I know the on/off switch is different on the two models but I am thinking of just keeping the same set up as the Road King.

Cruise control | Harley Davidson Forums

The 2007 has the older mechanical cruise control. The unit itself could have failed. Other issues known to cause CC to fail would be the failure of one of the brake switches. Check to see if your brake lights are staying on. If they are, one of the two brake switches has failed. Check them.

cruise control not working | Harley Davidson Forums

Luckily, I have a 2008 Road King Classic (FLHRC) WITH a manual! On the left handlebar switch housing there is a lever below the left turn signal button. It should be flipped to the right for the cruise control to be on, left is off. On the right switch housing, is a similar lever, below the right turn signal button.
