The 757 (designated "7N7" during initial development) was designed by Boeing to complement the Boeing 767 on less dense routes. Originally conceived as the Boeing 727-300, a stretched variant over the 727-200, the 757 was a newer design. Original designs of this plane featured a "T-tail" as the Boeing 727 but a conventional tail was ultimately adopted. Jet Charter for Business People
