HIV and Social Work: A Practitioner's Guide / Edition 1 by ...

HIV/AIDS social work was changed fundamentally by the introduction of more effective medications to combat the disease, and by the spread of HIV/AIDS beyond the gay community to intravenous drug users and their sexual partners, women, children, adolescents, and people of color. This paper describes the professional challenges HIV/AIDS social workers now face at this stage in the history of the disease as a result of improved medications, and the spread of the disease to newer groups.

Challenges and Changing Roles in HIV/AIDS Social Work ...

The eradication of HIV/AIDS represents one of humanity's greatest challenges, one that requires cooperation and comprehensive collaboration between scientific disciplines, governments, social institutions, the media, the social work and health care professions, and the general public.

HIV and AIDS - International Federation of Social Workers

Introductory Works. To orient readers to the state of the research, Peterson and DiClemente 2000 focuses on HIV prevention in general. DiClemente 1992 and Kotchick, et al. 2006 are seminal works focusing on adolescents specifically. In addition, family-based programs have been an important area of research and practice with regard to HIV prevention in adolescents.
